

Government to notify her as to whether any controlled substances had been seized pursuant to the ISO thus creating a collateral consequence which precluded a finding of mootness. *Id.* Thereafter, the Government notified the Administrator that no controlled substances had been seized and acknowledged that the case was moot. *Id.* Accordingly, the Administrator dismissed the case as moot. *Id.*

While the Government asserts that this case is not moot because of the “harm to [Registrant’s] reputation” and other potential collateral consequences such as his having to disclose the suspension on future applications, Request for Final Agency Action, at 12; it ignores that Registrant has not sought to challenge the allegations.<sup>3</sup> So too, not only did Registrant allow his Michigan license to expire, he has fled the United States. These findings are more than sufficient to conclude that Registrant does not intend to remain in professional practice (at least in this country).

Accordingly, I conclude that this proceeding is moot.
